

VITEC Multimedia

A French SME dealing with
MPEG Products & Technology
Since 1988

<http://www.vitecmm.com>

olivier.guye@vitecmm.com

Wishing to participate to a project including

*Real-time (Audio&)Video Descriptors Extraction
used for Data Indexing:*

- Audio genre classification
- Video temporal structure
- Visual descriptor extraction
- Object learning and recognition

Willing to lead a project about Content-Based Coding for C-B Retrieval

- *Relying on a an image content describing and indexing scheme using a shape dictionary built through statistical learning*
- *Enabling to edit, store, retrieve, protect and transmit visual patterns independently to capture and rendering*
