

Robotics Group Activities

- **Open Reference System Architectures**
 - **Behavior Based Systems**
 - **Extended Real time Control Reference Model**
 - **Tele-robotics: Human Supervisory Autonomous Control**
- **Development of Intelligent Control Agents**
 - **using classic and cognitive fuzzy control**
 - **application areas**
 - Human Machine Interaction, assisting and cooperating with people,**
 - Security, environmental safety, precise agriculture, mining,**
 - distant learning (Virtual Teaching Assistant)**
