

TRANSFORMING KNOWLEDGE INTO COMPETITIVE ADVANTAGE

INDUSTRIAL ROBOTICS

- Manipulators
- Complementary to production equipment
- Based in Parallel kinematics

INDUSTRIAL SERVICE ROBOTICS

- Robotic crawler for service operation in large surfaces

ROBOTIC ASSISTIVE DEVICES FOR THE DISABLED

- For physically disabled
- With relational / cognitive purposes

Main ideas :

- “Robotics’ society”, web services for robotics...
- Robotic agents
- Low cost distributed robotic modules
- “open” robotics
- Advanced robotic controls

Thank You
