

# Objective 2007.1.3. INFO DAY

Networked Enterprise and Radio  
Frequency Identification" Unit

Brussels, 9 February 2007

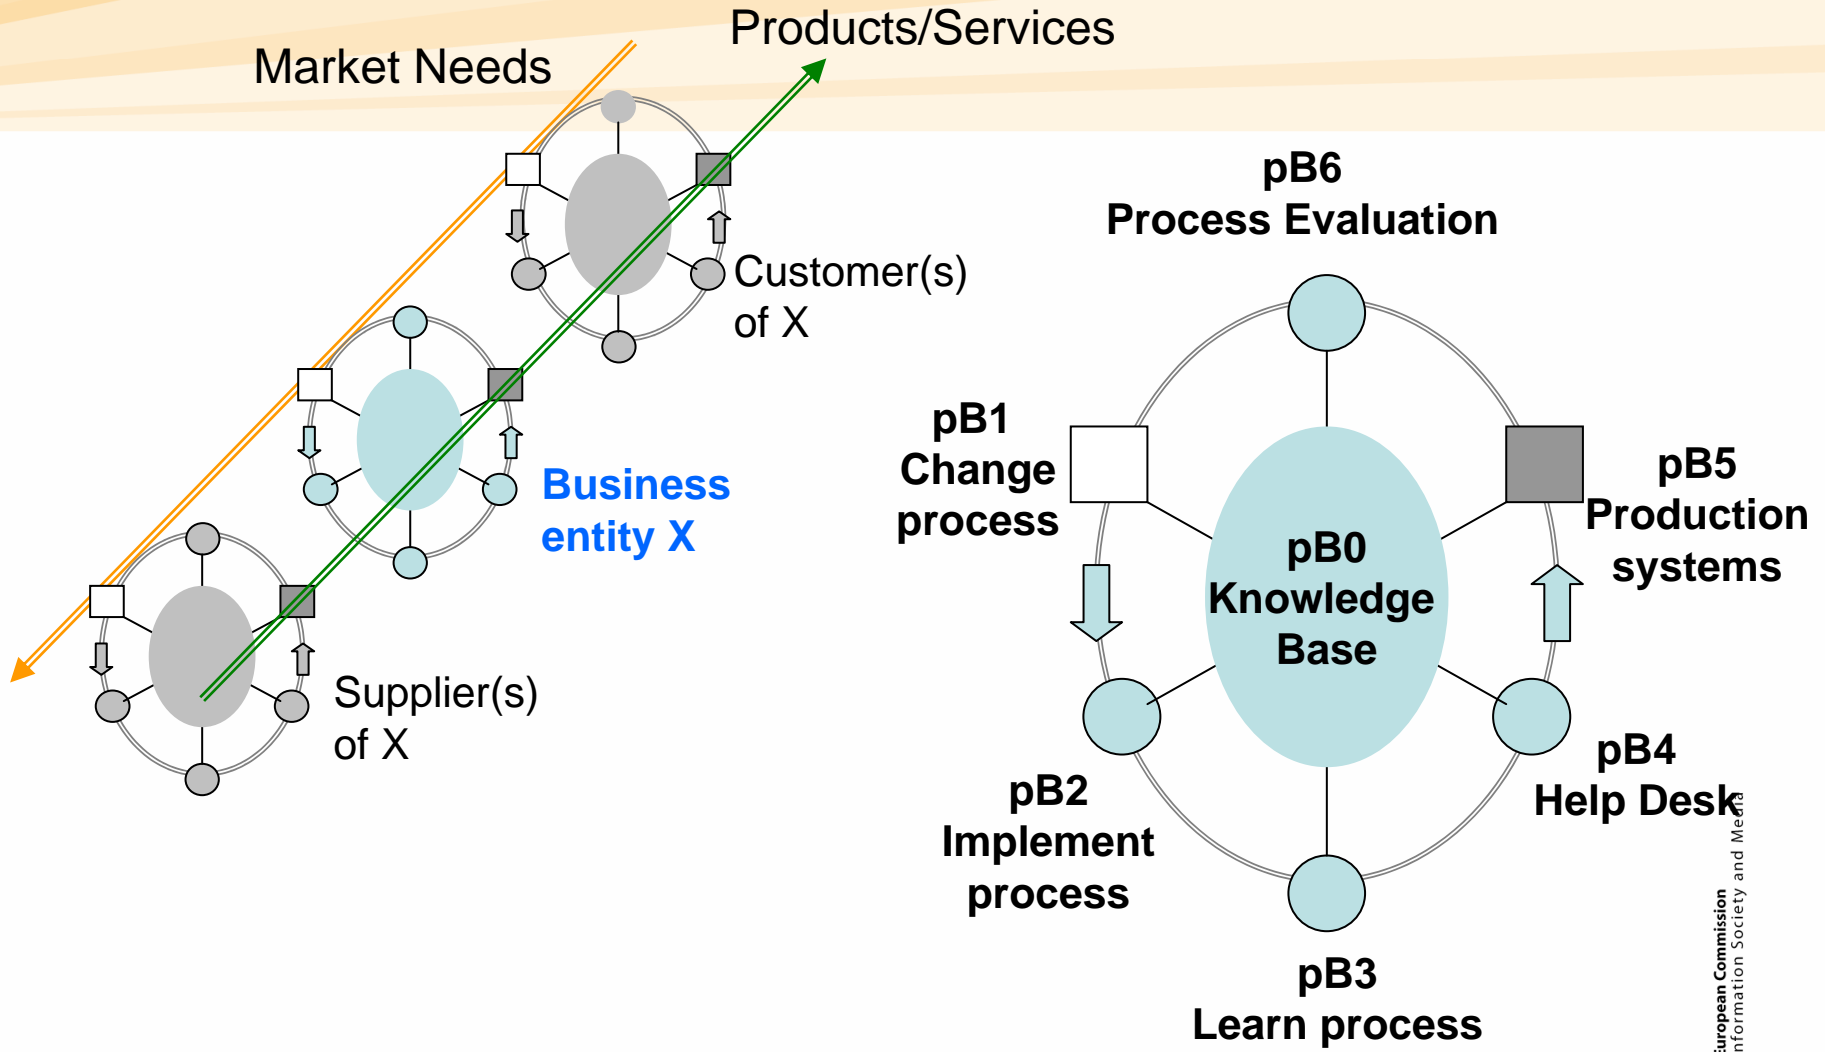

# The idea and our skills

- **Project title: Business Process Sharing (pSHARE)**
- **Research domain:** ontology and taxonomy, business process engineering
- **Our expertise:** business process modeling, automation, process-based elearning, management experience in the implementation of FP6 and eContent projects
- **Focus:** pragmatic approach to develop methodology and supporting tools usable for process innovation and learning in collaborative SMEs.
- **Impact:** pSHARE as a platform for process-level interoperability of business entities, more efficient and technology-independent collaboration
- **Consortium:** partners capable to deploy the results of relevant FP6 projects (SUPER, INETEROP, ATHENA,..).

# Business Process Knowledge Sharing

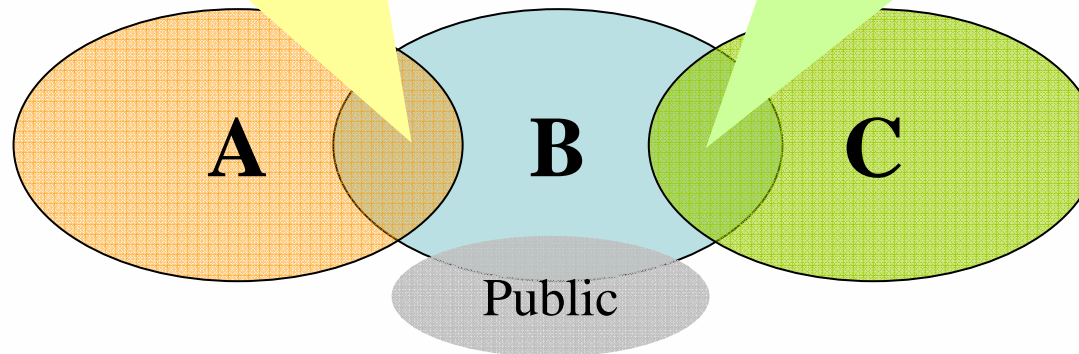

# Challenges of the project

## Access to external BPK (methods, formats)

- Ordering process at A ?
- Product change request process ?
- Quality control process of A ?
- Hotline ?

- Shipment process at B ?
- Order change request process ?
- Quality control process of B ?

- Business process repository structure ?
- Security: who can see and/or change what ?
- Transformation of different process notations

Entity A is supplier of B. Entity B is supplier of C  
**BPK = Business Process Knowledge**

## Future steps

1. Consultations on the results of the relevant on-going FP6 projects addressing business process knowledge (BPK) sharing
2. To define pragmatic objectives of the pSHARE project
3. Forming the project consortium:
  - methodology partners (from on-going FP6 projects)
  - pSHARE prototype service development partners
  - demonstration partners (innovative SMEs)
