

# Objective 2007.1.3. INFO DAY

Networked Enterprise and Radio  
Frequency Identification" Unit

Brussels, 9 February 2007

Nico Brehm

University of Oldenburg

# Federated ERP-Systems

- **Idea:**
- Collaborative provision of component-based ERP-Systems in provider networks
- ERP-Implementation based on a standardized (extended) Workflow Language for ERP
- Standardization of data models and Web Services for Enterprise Resource Planning (ERP)
- **Objective:**
- Cooperative provision of ERP functionality and on-demand use (SME focus)
- Cross-vendor integration of business components of different enterprise sectors
- Intra- and Inter-organizational collaboration improvement through integrated business applications

## Future steps

- We are looking for project partners:
  - Research partners
  - ERP-software vendors and providers
  - Pilot users
